

**St. Luke's Hospital & Health Network
Director, Budgeting and Forecasting**

St. Luke's Hospital & Health Network is expanding! We are currently recruiting for several positions in our growing Finance department. Our Anderson campus, the Nation's Newest Hospital, is opening November, 2011.

Based in the Lehigh Valley area region of Eastern PA, we are seeking an experienced professional for the newly created position, Director, Budgeting and Forecasting.

The Director of Budgeting and Forecasting (requisition 11770) serves an important role in the Network's financial planning and financial decision making processes. This is a highly visible position within the organization that supports strategic decision making through accurate forecasting and complex financial analyses. Responsibilities include managing and directing the development of annual operating budgets, capital budgets, rolling forecasts and financial analysis. This position will oversee the activities of staff who perform budget assembly, financial forecasts, financial analysis, and statistical reporting functions. A Bachelor's degree in Accounting, Finance or Business Administration is required; Master's preferred. 7 - 10 years progressive experience in budgeting and financial planning with 3 years management experience preferred. CMA or CPA certifications preferred.

Please apply online at <http://www.slhn.org>. Click on "Jobs". You will be asked to complete an online profile and apply to the position(s) that you are qualified for. No third parties or agencies, please. Equal Opportunity Employer
